7. **Professional Development:** Develop an awareness of career choices for undergraduate economic majors, and the options for graduate study.

Department Faculty:

1. Prof.Kasabe D.S. (HOD)
2. Dr.Ronge G.S.
3. Dr.P.M.Honrao
4. Dr.S.D.Suryawanhi

Department of Economics

Course Specific Outcomes

Course thought by: Dr.P.M.Honrao

F.Y.B.A.

Indian Economy: (CBCS Pattern):

On completion of the course, students are able to

1. The students to acquire the knowledge with various feature of the Indian as well as economy of Maharashtra.
2. Students understand and acquire knowledge various challenges faced by Indian economy.
3. Course enable to students understand the changing scenario of Indian and Maharashtraian economy.
4. The course empowers to the students to appear for various competitive examinations specially MPSC/UPSC exam.

S.Y.B.A.

(CBCS Pattern):

Name of the Course: Money, Banking and Public Finance

successful completion of the course, students are able to

1. Understand and acquire the knowledge the concept of money to the students.
2. Students are understanding the concept of value of money.
3. Students aware with the recent trends in commercial banking in India.
4. Students are familiar with the functioning of RBI and different monetary measures in India.
5. Understand nature and scope of public finance in India.

S.Y.B.A.

Name of the Course: DEMOGRAPHY (CBCS Pattern):

Successful completion of the course, students are able to

1. Aware the students about the various issues related to population in India.
2. Students understand the various concepts and theories of population.
3. Enable the students are understand population policy of India.
4. Various tools and techniques used for Demographic study.
5. Apply the knowledge of demographic technique specially forecasting and projection technique fundamentals to solve the demographic complex problems.
6. Understand the importance, causes and impact of population growth and its distribution, translate and relate them with economic development.

B.A.III

Name of the course: Development and Research methodology

(CBCS Pattern):

Successful completion of the course, students are able to

1. Students are understanding and apply theories of growth and development, sectoral aspects of development, investment criteria, allocation of resources, interrelation of international trade and development, domestic macro policies, international aspects of development and the issues relating to sustainable development in real world market.
2. Develop understanding on various kinds of research, objectives of doing research, research process, research designs and sampling.
3. Students acquired basic knowledge on qualitative research techniques.
4. Students have adequate knowledge on measurement & scaling techniques as well as the quantitative data analysis.
5. Students are able to data analysis-and hypothesis testing procedures.

Name of the course: Business Economics-III

Choice Based Credit System

Successful completion of the course, students are able to

Students' knowledge gain with sustained interest of the developing countries in uplifting their economic conditions by restructuring their economies to acquire greater diversity, efficiency and equity in consonance with their priorities. Moreover, students must learn about the measurement, factors of economic development and various theories of development. At the same time students learn about Indian economic development with respect to Indian planning, the role of foreign capital and International financial institutes.

5. Judging the function, merits and demerits of Foreign Capital, and International Corporation (IMF, IBRD, WTO and BRICS).

Class: - T.Y.B.A (Sem. V)

Micro Economics (I)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand different between Micro Economics & Macro Economics.
2. to able to understand nature of micro economics
3. to able to understand concepts of Concept of Utility
4. to able to understand Theory of production and cost

Class: - T.Y.B.A (Sem. V)

Macro Economics (I)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Nature and Scope of Macro Economics
2. to able to understand concepts of National Income
3. to able to understand Keynesian objection to the classical theory
4. to able to understand Demand and Supply of Money

Class: - T.Y.B.A (Sem. V)

History of Economic Thought

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand the concept of Mercantilism
2. to able to understand Adam Smith - naturalism and optimism
3. to able to understand Keynesian objection to the classical theory
4. to able to understand Theory of Economic Nationalism
5. to able to understand Marginalists

Class: - T.Y.B.A (Sem. V)

Agricultural Economics

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Rural Economy of India
2. to able to understand Land Reforms in India
3. to able to understand Development of Agriculture
4. to able to understand Technological Changes in Agriculture

Class: - T.Y.B.A (Sem. VI)

Micro Economics (II)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Market Structure
2. to able to understand Factor Pricing
3. to able to understand Welfare Economics
4. to able to understand Compensation principle

Class: - T.Y.B.A (Sem. VI)

Macro Economics (II)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Trade Cycles
2. to able to understand Concept Economic Growth
3. to able to understand Welfare Economics

4. to able to understand different between Internal and international trade
5. to able to understand the concept Inflation

Class: - T.Y.B.A (Sem. VI)

History of Economic Thought (II)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Marshall as a great synthesizer
2. to able to understand Concept Keynesian theory of employment
3. to able to understand Process of capitalist development
4. to able to understand Indian Economic Thought
5. to able to understand the concept Inflation

Class: - T.Y.B.A (Sem. VI)

Agricultural Economics (II)

Semester pattern syllabus (CBCS)

On completion of the course, students are able to

1. To able to understand Need for agricultural credit
2. to able to understand Agricultural Marketing
3. to able to understand Agricultural Prices
4. to able to understand Indian Economic Thought
5. to able to understand W.T.O. and Indian Agriculture

Department of Geography-2019-20

Paper No. and Objectives: -

1. Paper No. I – Physical Geography – Geomorphology

To introduce the latest concept in Physical geography essentially geomorphology to the student of geography in brief but in adequate manner along with this application of subject knowledge to the society.

2. Paper no II – Physical Geography – Climatology

- i. To know the constituents of atmosphere its dynamic nature & the process associate.
- ii. To know the contribution atmosphere of atmosphere in making the earth habitable and also.
- iii. To consequences of human activities of atmospheric process.

3. Paper No. III – Human Geography - Objectives

- i. To understand human geography as a basic branch of Geography along with the term in between environmental determination and possibilism and man environment relationship.
- ii. To acquaint the student with the human races radical classification and social conflicts
- iii. To understand the the student who is the human life in cold desert plateau and mountain regions and its adoption to environment paper number paper number

4. Paper No. IV - Physical geography of India - Objective

- i. To the student with the geography rivers and climate of India.
- ii. To understand the students while vegetation and resources of India.

5. Paper No V - Population Geography – Objective

- i. To finalize the student with the nature and scope of Population Geography with growth and distribution of population
- ii. To acquaint the student with the basic concept in Population Geography and population growth theories.
- iii. To introduce & understand the components of population Geography such as migration population composition with population policies.

6. Paper No. VI - Economic and Demographic Geography of India - Objective

- i. To familiarize the students with agriculture and industries in India population of India
- ii. To acquaint the student with the population, Transport and Trade of India.

7. Paper No. VII - Resource Geography

Development in Science and Technology has changed the pattern of economic activities throughout the world.

The major objectives of Economic Geography are as follows

- i. To acquaint the student with the basic concept of economic geography.
- ii. To study the various types of resources the basis for various economic activities

8. Paper No. VIII - Urban Geography

- i. To familiarize the student with the conceptual theoretical and empirical development in settlement studies in geography and current settlement scenario in the world and India.
- ii. To provide the student in Idea about international and national concerns on settlement issues.

9. Paper No. IX - Development of Geography

- i. To introduce the student to to the philosophical and methodological Foundation of the geography.
- ii. To provide information related to the major landmarks in development of geographical thought.

10. Paper No. X - Geography of Economic Activities

- i. To acquaint the student with economic activities that is agriculture manufacturing transportation and economic and trade & tourism.
- ii. To acquaint the students with the the basic concept of regional planning.

11. Paper No. XI - Political Geography

- i. To understand the basic concept of political geography.
- ii. To familiarize the students with the geographical factors which have bearing on the geographical administrative organisation of space.

12. Paper No. XII - Applied Geography

- i. To familiarize the student Nature and scope of applied Geography.
- ii. To understand the various issues related to physical environment human resources and economic etc.

Geography Practical Papers -

I. Paper No.I - Elements of map work and weather reports

- i. To enable the students to use elements of map work.
- ii. To introduce students to weather instruments and weather charts.

II. Paper No. II - Cartographic and Advanced Techniques in Geography

- i. To enable the students to use various Geographic techniques.
- ii. To introduce the the importance and basic principles of Remote sensing GIS and GPS.

III. Paper No. III - Topographic maps and statistical methods

- i. To acquaint the students the the topographical maps.
- ii. To introduce the students about statistical methods in geography.

IV. Paper No. IV - Surveying and Field Work.

- i. To acquaint the students with the surveying.
 - ii. To introduce the students about field work.
-

Department of Geography

Paper wise Outcomes

B. A. First Paper No. I - Physical Geography - Geomorphology

Students aware about concept of physical geography branches of physical geography and knowledge of earth surface and interior of the earth.

Student aware about large concept of physical geography of world type of landforms.

Paper No. II Physical Geography- Climatology

Student aware about what is the climate difference between climate and weather layer of the atmosphere structure earth temperature air pressure and changing climatic condition.

Student know about Global Warming types of rainfall monsoon rainfall distribution in India.

Paper No.III Human Geography

Student know about world human races types of human races culture social wellbeing world language groups.

Distribution of World Population migration and adoption of environment. Student aware about various types of tribes in world. Students are aware about determinism and stop and go concept.

Paper No. IV - Physical Geography of India

Student aware about physiography of India Climate vegetation and Minerals and resources student aware about distribution of natural resources in India.

Student about types of crops in India natural drainage pattern.

Paper No. V - Population Geography

Student know about the world distribution of population growth density and migration literacy age composition rate of population population growth theories quantity of

population population policies in world. Student know about fertility and mortality rate of world and under over and optimum population concept.

Paper No. VI - Economic and Demographic Geography of India

Student know about the agriculture various crops Horticulture industries sugar factory cotton textile. Student know about population of India Transport and trade. Student know about the concept of green revolution in India. Student know about industrial development of India trade and transport.

Paper No. VII - Resource Geography

Student know about the basic concept of economic geography various types of resources and the basis for various economic activity. To aware development in Science and Technology has changed the pattern of economic activity e throughout the world.

Paper No. VIII - Urban Geography

Student familiarise with the conceptual theoretical and empirical development in settlement studies in geography to provide the the in idea about international and national concerns and settlement issue urbanisation urban problems.

- Rural and urban settlement in India and world.
- Site and situation.
- Various theories of settlement geography.
- Function of Settlement.

Paper No. IX - Development of geography

Student know about to the philosophical methodological foundation of Geography know about knowledge the geographical concept and development of geography.

- Indian geography, China, Greek, Roman, French, Arab and German geographer and his concept.
- Students know about in the world major exploration and discoveries. **Paper**

No. X - Geography of Economic Activities

- Student knowledge of various human activities and the students with basic concept of regional planning.
- Student aware about factors affecting on the industrialization, Weber's theory of industrial location theory.

Paper No. XI - Political Geography

Student know about the basic concept of political Geography the student with the geographical factors which has a bearing on the geographical organization office space and student understanding concept of nation state boundaries and geopolitics various theories.

- Conflicts of Various Nations.
- Boundary disputes.

Paper No. XII – Applied Geography

Students knowledge of current Geography cal condition environment and human resources issues related to physical environment human resources and economy relation between man and environment.

- Students aware about new Geographical techniques – GIS, GPS and Remote Sensing etc.
- Student aware about water soil conservation and pollution.

Geography Practical Papers -

Paper No.I - Elements of map work and weather reports

Students skill of scale map projection and to use element of map works student understand of various weather instruments and knowledge of the weather student aware about weather map deposit changing weather conditions of the world.

Paper No. II - Cartographic and Advanced Techniques in Geography

Students know about the various Statistical Techniques use in geography students know about the recent trends in geography Remote Sensing GIS and GPS and aerial photography. Computer based softwares using for geographical analysis.

No. III - Topographic maps and statistical methods

Students know about the topographical map topography of India and interpretation of topographic map student know about the various statistical methods and there use of various various parents of geographical study. Student aware about and major elevation of mountain, pleatue, hilly region cliff. Etc.

Paper No. IV - Surveying and Field Work.

Student know about the surveying and field work, village survey, tour report.

- Chain type survey
 - Prismatic compass survey
 - Plane table survey
 - Study tour, village survey reports
-

DEPARTMENT OF ENGLISH -2019-20

OBJECTIVES OF THE COURSE AND COURSE OUTCOMES

**B. A./B. Com–I
(Semester I and II)
ENGLISH (Compulsory)**

Objectives:

- To introduce to the students various forms of communication.
- To make the teaching of English more practical and student centric.
- To introduce to the students poems from across the globe.
- To acquaint the students with different forms of prose.
- To acquaint the students with different language skills.

Outcomes:

By the end of the course students will

- Be competent and proficient to communicate properly
- Understand the social commitment and value of good communication
- Be creative and will try his hands in writing from time to time
- Be a good communicator

**B. A. –I
(Semester I and II)
ENGLISH (OPTIONAL)
INTRODUCTION TO ENGLISH LITERATURE AND LANGUAGE
PAPER NO. I**

Objectives:

- To acquaint students with literary forms and linguistic terms.
- To initiate students and provide them a firsthand experience of reading and interpreting literary texts.
- To acquaint students with structural and analytical techniques in poetry.
- To acquaint students with analysis of minor literary form i.e. short story.

Outcomes:

By the end of the course students will

- Understand literary forms and linguistic terms.
- Be providing them a firsthand experience of reading and interpreting literary texts.
- Be familiarizing with analysis of minor literary form i.e. short story.

**B.A I Semester I
Optional Linguistics
Introduction to Linguistics**

Objectives:

- To introduce linguistics as a discipline of knowledge.
- To familiarise students with basics of linguistics and the key concepts.

Outcomes:

By the end of the course students will:

- Understand basic concepts in linguistics.
- Get acquainted with various branches of linguistics.

**B.A. and B. Com. II
Compulsory English**

Objectives:

- To comprehend the language skills.
- Use some simple language expressions in day to day life.
- To develop the vocabulary of the students.
- To improve the communicative skills of the students.
-

Outcomes:

By the end of the course students will

- Be competent and proficient to communicate properly
- Understand the social commitment and value of good communication
- Be creative and will try his hands in writing from time to time
- Be a good communicator

BA II Sem III & IV
BRITISH LITERATURE

Objectives:

- To introduce to the students British Literature and writers.
- To initiate process of literary and critical interpretation of the texts.
- To acquaint students with novel, essay, poetry and drama forms.
