REPORT ON REMEDIAL CLASSES

Department of Economics

AY 2022-23

The remedial teaching hours envisions support to slow and weak learners in economics core subjects and provides them more focused teaching support to enhance their qualitative and quantitative subject knowledge, academic skills and conceptual clarity. Since our college has majority of students whose socio-economic status are weak, the remedial teaching and mentoring offers them to focus and pay attention. Faculties also get a chance of effective mentoring of such under privileged groups. The main facets of remedial coaching carried out in our college are well organized classes; exact screening provides notes, supplying additional study materials, question banks and repeated exams. These strategies have facilitated us to upraise our pass percentage to a great extent.
